

MEMORANDUM FOR: Chief, Imagery Services Division, PSG/NPIC

SUBJECT : Expression of Appreciation to Photo Lab Personnel

1. Late yesterday we received an urgent request for briefing materials for a high level briefing. At about 1500 hours we submitted a request to the Photo Lab, for two enlargements, asking the lab to return the completed job to us by 1615.

2. The photo lab completed the job (Job #74-I-100) and we actually had our materials in hand slightly before 1615.

3. Please express our thanks to the people who worked to get this job out on time. This type of response is typical of the lab. We frequently must place short term demands upon it, and the lab nearly always comes through. Once again, we appreciate it.
